DISPATCHES TO THE OREGONIAN.

EASTERN DATES TO SEPT. 4.

EASTERN STATES.

New York News.

TROY, Sept. 2.—A letter from Senator Conkling to J. H. Griswold is published to day, in which the Senator says the Republicans of this State are not divided upon any principle, at stake, or upon any practical measures, and asks if the Republicans will desert the cause merely because the loaves have not come to their baskets or fishes to their nets? He declares his willingness to labor side by side with any and all Republicans. He announces that he is for Grant because, aside from personal friendship for him, he believes he has made a better President than he or anybody who voted for him had a right to expect. He is a better President every day than he was the day before, and because he believes that with him as a candidate success is assured, while with any other success is not certain. He urges the necessity of a union of all Republicans and others who would redeem the State and city of New York from the control of the present rulers. He denounces strongly all efforts to divide the Republican ticket on personal grounds.

Rumors of a Grand Consolidation.

NEW YORK, Sept. 2.—Rumors have been circulated in business circles to the effect that a consolidation of the Pacific Mail Steamship Company and the Union Pacific and Panama Railroad Companies has been agreed on by the managers, subject to ratification by the Directors, who are to meet next week. Well informed parties say these rumors are incorrect. The only ground for them is the fact that the Pacific Mail and Union Pacific Companies have for some time had under consideration the subject of adopting a uniform tariff.

More of the Doings of the Tammany Thieves.

NEW YORK, Sept. 2.—Republican journals publish a statement of rents paid for city armories, from which it appears that four armories are rented yearly at a cost of $100,000. It is declared that, on the most liberal estimate, the places are actually worth $14,000. It also appears that $85,000 are yearly paid out for armories that are not occupied at all.

Indictments on account of the Westfield Disaster.

NEW YORK, Sept. 2.—Indictments are found against the President and Superintendent of the Staten Island Ferry Company and engineer of the *Westfield* for manslaughter in the third degree. The indictment against Jas. K. Matthews, U. S. Inspector of Boilers, is for manslaughter in the fourth degree. There is a great deal of speculation already as to whether the trials will be actually had, the probability of the plea of guilty being made by accused being strongly talked of.

New Orleans Affairs.

NEW ORLEANS, Sept. 2.—The name of U. S. Senator West figures in the water works bribery business in the City Council, and prominent officials are reported to belong to the scheme.

Dr. Russell, Secretary of the Board of Health states in an official note that there is not a case of yellow fever in the city.

The Pennsylvania Embezzlement.

PHILADELPHIA, Sept. 2.—*The Evening Telegraph's* Harrisburg special says that a criminal requisition for Evans, alleged defaulting war claim agent, has been sent to New York. Last night proper affidavits were made before the Governor that Evans was an embezzler and fugitive from justice, and Gov. Geary at once issued the requisition.

Another Railway Disaster.

DETROIT, Sept. 2.—Two emigrant cars on the Detroit and Milwaukee Railroad were thrown from the track this morning near Linden. One woman killed and seventeen emigrants more or less seriously injured.

New York Stock Market.

NEW YORK, Sept. 2.—Stocks active. Western Union was the great feature, advancing 2½ per cent. Pacific Mail is next in point of interest. Western Union, 65; Quicksilver, 14; Mariposa, 34; Preferred, 6; Wells, Fargo & Co., 51½; Pacific Mail, 50½.

WASHINGTON CITY.

Kansas Squatters.

WASHINGTON, Sept. 2.—It is thought executive measures will soon be taken in ordering Kansas squatters who have settled on a portion of the Indian Territory, off, under certain penalties, the land having been set apart for the sole use of the Indians.

BY ATLANTIC CABLE.

Suicide of an Actor.

LONDON, Sept. 2.—Walter Montgomery, a well known actor who had recently returned from a professional visit to the United States, committed suicide last night. He was married on Wednesday previous to an American lady.

Austria and Germany.

BERLIN, Sept. 2.—The *Cross Gazette* states that the intention of sending a diplomatic representatives of Germany abroad a circular communicating the character of results arrived at in negotiations at Gastein has been relinquished. Reassuring explanations will be sent only where disquietude is expressed.

French Affairs.

VERSAILLES, Sept. 2.—In the Assembly to day Lafont proposed that the session be adjourned on the 15th inst. until Nov. 15th.

Paroy Quertier stated that the third instalment of the war indemnity, amounting to half a milliard francs has been paid to Germany. He implored the Assembly not to adjourn until it had provided ways and means for meeting the financial demands of the Government.

The Court Martial has been deliberating with closed doors since 9 o'clock this morning, and has just pronounced the following sentences on members of the Commune brought before it for trial: Ferre and Lullier, death; Urbaine and Brignet, imprisonment for life with hard labor; Assy, Billiary, Champy, Regere, Grousset, Verdure and Ferat, deportation; Cournet, six months imprisonment and a fine of 500 francs; and Clement, three months imprisonment. Deschamps, and parent are acquitted.

Mrs. J. B. Frost writes a long letter to the Statesman against woman suffrage. We have read it with some care, and don't think it meets the great question at all—more a condemnation of free love than of the doctrine of suffrage for woman. Perhaps it is unfortunate for the cause of woman suffrage that some of its advocates have promulgated the hideous doctrines of free love, but this only just. We say that these advocates are very few. Most of those who support the movement are pure and exemplary in all the relations of life. They who answer the arguments must try something else than an outcry of indignation against free love, which, though very well in itself, doesn't meet the case at all.

Down in New Mexico they haven't any great admiration for "Joaquin" Miller's *Kit Carson's Ride*. The poem they think was well enough for London or Boston, but it won't do for the plains. One critic says that people who know Kit Carson see no trace of their brave and honest friend in the licentious and maudlin coward who leaves the woman he has seduced to perish in the flames, while he saves himself on the horse he has stolen from her father. "No man was he," says this writer, "to take his woman's horse, because it was faster than his own, and leave her to a prairie fire while he galloped off to twaddle in timid bosh over 'her marvellous eyes.'" Which is not bad for a criticism, whatever anybody may say.

Women in England who can afford to keep a husband must be prepared to give their unfortunate partners an allowance when they determine to dissolve partnership. This has just been decided by Lord Penzance in the case of Milne vs. Milne, in which Mrs. Milne, against whom a decree of divorce was allowed, was compelled to pay to her husband out of her separate estate an annual allowance of £600 toward the maintenance and education of the children of the marriage. It's a rough rule that won't work both ways.

LAST NIGHT'S DISPATCHES.

SPECIAL DISPATCHES TO THE OREGONIAN.

EASTERN STATES.

NEW YORK, Sept. 3.—The Superintendent of Public Schools of Long Island City has dismissed all Catholic teachers and appointed Protestants to their places.

Passaic river is at an unprecedented height for this season. One of the abutments of the beautiful iron bridge above Passaic falls yesterday gave way, endangering the whole structure, which is a single span. The overflow has done immense damage, washing away all the hay stacks from the great level known as the Big Piece in Morris county, New Jersey. Thousands of acres were yesterday under water.

The New York City Council of Political Reform are procuring the enrollment of all right minded citizens for the purpose of correcting public abuses and securing competent administration of the city and State Governments, and nominate for office only intelligent and uncorruptable citizens. Measures are in progress to secure the co operation of all the clergymen in the State. It is found that nine tenths of the voters in the State are in Protestant churches. The movement originated with that class and its management has been principally chosen from it. Funds are solicited for carrying on the work. Contributions can be sent to Treasurer Henry Clews, 32 Wall street. Among the members of the Executive Committee are W. F. Havemeyer, Robert Hoe, Geo. Putnam, Dexter A. Hawkins and H. O. Vanstock.

Fires.

WHEELING, Va., Sept. 3.—The Wheeling Iron and Nail Co's mill was totally destroyed by fire this evening. The mill is the largest in the West, and contained ninety six nail machines, besides a quantity of other machinery. Loss, $300,000; insurance, $120,000. Three hundred men are thrown out of employment. Cause unknown. The fire originated in a part of the building where there has been no fire since Saturday noon.

AUGUSTA, Me., Sept. 3.—A fire at Richmond, Maine, this morning, destroyed thirteen houses and stores on South and Church streets. Thirty buildings were on fire at one time. Once the men were obliged to leave the engines to protect their own property. Their places were filled by ladies, who worked the engines a few hours. Loss, $20,000.

RAHWAY, N. J., Sept. 3.—A fire this morning consumed the carriage manufactories of Byrd & Brown, Woodruff & Dunham, and the sash factory of Wm. Morgan and several surrounding buildings. The body of an unknown man was found in the ruins. Loss, $140,000.

NEW YORK, Sept. 3.—The steamer *Tybee*, from San Domingo, brings news that almost the entire business portion of Porto Plata was destroyed by fire August 21st. Loss, $800,000. Little or no insurance. Origin of fire unknown.

Arrest of Ku Klux in South Carolina.

COLUMBIA, Sept. 3.—The *Union Herald* says a gentleman from Washington, N. C., yesterday, states that as he passed Greensboro, N. C., he saw 18 Ku Klux in charge of troops, the commanding officer of whom told him that 60 more would be arrested. These, under arrest, are, of whom it is said is a member of the Legislature were on their way to appear before the U. S. Commissioners at Washington.

Arrest Caution and Stay Stag.

NEW YORK, Sept. 3.—The Grand Jury of Westchester county visited Sing Sing prison yesterday to investigate the recent escape of convicts. The members are understood to have expressed themselves unfavorably in regard to the management of affairs at the prison.

Conservative Convention in Virginia.

At the Conservative Convention held in Virginia, Gen. Early made a speech declaring to never vote on the Committee on Resolutions of the Virginia Conservative Convention.

The Turf.

Lady Thorne is at Fleetwood, and trotting last again. It is believed that she will regain her former speed.

Bonds and Gold.

The Assistant Treasurer at New York will buy one million dollars of bonds each Wednesday, and sell two millions gold each Thursday during this month.

Yellow Fever in Charleston.

CHARLESTON, Sept. 3.—It is the general opinion that the yellow fever is dying out. The Board of Health report three deaths for the last day, ending at noon to day.

Denial from A. H. Stephens.

WASHINGTON, Sept. 3.—A. H. Stephens, in the *Atlanta Sun*, indignantly denies that he is the author of the implied concession or boon that his cause may be regained and independence secured for the South.

Gen. Hawley on Gen. Butler.

HARTFORD, Conn., Sept. 4th.—A circular letter from Gen. Hawley, published in reply to Gen. Butler's Springfield speech, in which Hawley says that he thinks Butler the most reckless, unscrupulous and dangerous demagogue this country has seen since Aaron Burr; that he may make a good deal of trouble, but he will kill himself. He might, posed in Paris as Robespierre and Rochefort succeeded, but he is a monstrosity in in New England.

New York Matters.

NEW YORK, Sept. 4.—Rev. Geo. Thrall, Rector of Emanuel Church, 57th street, has, at his congregation's request, adopted the liturgy of the Union prayer book, which differs from that in use in New York. Mr. Thrall states that this ritual is the work of a number of divines, both in this country and England; it is free from passages which had given rise to controversy and contention in the church. Congregations seemed pleased with changes made in the old form, and recommended, with great heartiness, the withdrawal from Protestant Episcopal Church; and it is thought this may prove the beginning of a serious schism.

Tammany Frauds Again.

NEW YORK, Sept. 4.—Some accounts of county expenses are again published to day. These accounts are said to be taken from a list furnished by the Mayor and Controller, and show that in 1869–71 nearly thirteen and a half millions were taken from the public treasury, of which five and three quarters millions went to Ingersoll & Co., three millions to A. J. Garvey and a million and a quarter to Keyser & Co. Three quarters of a million went to Connolly.

The Irish are beginning action with reference to the alleged frauds on the County Treasury. At a meeting of Democrats, Saturday resolutions were passed calling upon the Controller to resign and denouncing generally the ring.

BY ATLANTIC CABLE.

French Affairs.

PARIS, Sept. 3.—The Court Martial at Versailles will not sit for three days, when they will take up the cases of Cavales, Rochefort, Rossel and Moreteau. Female prisoners accused of firing buildings with petroleum will be tried before a separate tribunal to-morrow.

Mortality returns from Paris last week show a total of 806, of which four were from cholera.

Thiers has written to Larch asking him to withdraw his resignation.

The decree passed August 31st prolonging Thiers' power, provides for a Vice President of the Council of Ministers, to occupy the chair in the absence of the President. In consequence of the changes made to the Constitution, members of the Ministry resigned, but resumed their portfolios at the request of Thiers.

The *Vrai* newspaper has suspended publication.

ST. PETERSBURG, Sept. 3.—Grand Duke Alexis sailed to-day from Cronstadt in the frigate *Svetland* for the United States.

The Emperor of Russia has gone to Caucasus and the Empress to Crimea.

Demonstration at Dublin.

DUBLIN, Sept. 3.—A monster demonstration was held to night with a vast procession. One hundred thousand people were present at the meeting at Phœnix Park. Smyth, Butt and Nolan spoke. A resolution demanding the release of Fenians was adopted. As the people were returning a collision occurred. The police drew their staves and the people used sticks and stones. The latter were gradually dispersed. Many arrests have been made.

LONDON, Sept. 4.—M. P. Smith yesterday presided at the Phœnix Park, Dublin. At the meeting the police were invisible, but in returning the mob encountered and attacked the police patrols. A fierce fight ensued and 50 constables were injured and many prisoners taken.

Gladstone, in a speech at Whitby on Saturday, rejoices that he can now look upon Americans as friends, and indulges in the hope that all controversies are settled.

There was a meeting of engineers, 8000 strong, at Newcastle, Saturday, to determine to insist on eight hours work per day.

Queen Victoria is still indisposed and confined to her house.

Spanish Affairs.

LONDON, Sept. 3.—A correspondent who, on an invitation accompanied the King of Spain on a three weeks' trip through the provinces, telegraphs that the Royal party reached this place on Saturday evening, having made 36 stoppages that day on the road from Madrid. The King was everywhere received with much enthusiasm. Deputations presented addresses of loyalty to which he graciously replied. He spoke even with the poorest, listening with great patience to requests and suggestions. He is receiving the pride and hearty hearts of every one. In personal conversation with the King he said that he desired Spain should be well understood by the United States, and friendship between the two countries to be cultivated.

NOVA SCOTIA.

The Halifax Regatta.

HALIFAX, Sept. 3.—Several citizens offered to back Brown against Gadlar for a race over the same course within thirty days for $1,000. Gadlar refused. The feeling is strong here that Brown would have won the scull race yesterday had Gadlar not taken his water. The Taylor, Bedforth and American crews left to day for Saratoga. Before leaving the American crew was presented with a purse by friends here.

The inquest on Reporth's remains will be resumed on Monday.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Sept. 2d.—The appearance of what is believed to be a fraudulent poll list for the Fourth Ward was examined to day by Naphtaly, Chief of the Federal Supervisors of elections. The circumstances which led to the arrest are not made public. It is estimated that 2,700 names have been placed on the Register in San Francisco, which have no business there.

The brig *John Smith*, from St. Michael via Alaska, to-day reports leaving the Captain and 12 of the crew of the British bark *Jessie*, from Middletown, which went foul on First Pass Arctic Ocean, August 3, 1870. Eight men were left in clinging to the chain cable. Captain Barker and crew started in Pilot Boat.

Some twenty odd cottages in the two story frame dwelling house of Hyde street, near Pacific, owned and occupied by Mrs. Johnson, this afternoon by crowding in under the floor. The house and contents were nearly ruined. The next house, a one story frame, belonging to the estate of the late Mrs. Mount, was also mostly destroyed. In the confusion the wife of the tenant of this house lost all her money and jewelry, which was stolen by thieves, and all their furniture and clothing, save what she and her infant had on, was burned. A large number of people have gone over to Oakland this evening to attend a great Republican meeting.

To day has been an unusually busy day in the harbor, no less than thirty vessels having arrived, most of them steamers. Among the arrivals is the schooner *S. H. Merrill*, from the Chonos Islands, with 60,000 codfish, which at the present price of the article, will net a small fortune to the owners. Reports agree that the catch this season will be immense.

Investigations now going on indicate that extensive (election) frauds have been projected in this city. Further particulars will transpire.

Fred. Lyster's new sensational scenic drama, "Rody, or California in 1871," which has made such a hit at the California Theater, is to be brought out immediately in New York with the magnificent California scenery carefully copied.

SAN FRANCISCO, Sept. 4.—The ship *Rokeby* (Hall) cleared for Queenstown with the eighth cargo of wheat to-day. All of these have been shipped by Macondray, Lanier & Co. The ship *Hall of Yore*, 180 days from Liverpool, with coal to Dalton, Guthrie & Co.

About 3 o'clock this morning a difficulty occurred at a saloon near the corner of Bidwell and Third streets, between Marion Wilson, a theatrical ager, and Pat Burns, by the State Harbor Commissioners, and a ward politician generally known as Harry, giving out of liquor and the discharge of pistols. Harry stepped Wilson's side, and the ladies, in return, fired two shots from a revolver, one of which struck the counter, and the other struck Patrick Burns, a young man who had nothing to do with the affair, entering the saloon at the moment and coming out on the other side. It is rumored that as the second shot was fired Marion jumped back and swung Burns around in front of him. Burns is still living but suffering intensely and not expected to recover. Wilson is arrested.

It is claimed that the spurious poll list voted in the Fourth Ward was not obtained by any change of the kind, but is merely a memorandum, on a slip leaf, of twenty four voters applied to a transfer, made out by the Clerk to facilitate business when the registration should commence. Caldwell, the Registry Clerk, who was arrested on a charge of making out the list, is an old Republican and respectable citizen. He is out on bail, and declares his intention of prosecuting Holland for false imprisonment.

Some anxiety is felt about the steamer *Alice*, now a week overdue from Australia. She will not be able to sail on Tuesday, as advertised, in consequence.

The Mechanics' Institute Fair will positively close next Saturday night.

Disputch from San Jose.

SAN JOSE, Sept. 13.—Thirteen car loads of excursionists left for San Francisco to night to participate in a Republican procession.

The Democrats are holding a spiritual meeting to night.

NEVADA CITY, Cal., Sept. 4.—The Republicans are having a grand torch light procession to night. There were over 1,700 torches. Two thousand Republicans are now being addressed by Booth, to be followed by Eastman.

The Daily Oregonian.

TUESDAY MORNING, SEPT. 5, 1871.

Prosperity.

Oregon is now in the midst of by far the most hopeful and prosperous season she has ever known. There was, indeed, in the flush times of gold mining a greater abundance of money, but this prosperity was much more fictitious than real, and was based on no reliable foundation. But the prosperity of the present time is legitimate, and proceeds from conditions which promises permanent results. The producers of the State are making money fast; their wool and their wheat are bringing them in abundant supply of cash; they have been able very generally to clear off their debts, and altogether are in a better position than they have ever been.

The advance in real estate has also increased the actual wealth of nearly all persons in the State. The building of railroads has put in circulation a large amount of money, which is having a marked effect in increasing the volume of trade and accelerating cash payments in all departments of business. More confidence is felt in the permanence of our prosperity than at any former period, and people are beginning to realize the actual advantages of living in Oregon.

The growth and prosperity now witnessed are not ephemeral. They are based on sure foundations, and must be enduring. Now, when we shall have added to the productions of our fertile soil a diversified manufacturing industry, we shall begin to work toward the attainment of the full fruits of prosperity of which our State is capable. Manufacturing industry in its manifold forms will soon begin, let us hope, to be developed. This is the next requirement. Our fertile fields will not do it all. The powerful machinery of manufactures must be summoned to aid in the development of the higher prosperity of the future. Much has been accomplished, but more remains. It is for those who can command capital to enter the field and work out the problem. What man, or what combination of men, will be for Oregon in the matter of starting manufactures what Ben Holladay has done for the state in starting its railroads?

The Guilty Leaders of the Party.

They who have read the recent speech delivered in San Francisco by Judge Hoffman, will remember that he proved from the record of Congress, that Senator Cassidy of Alabama proposed a measure in the Senate to compensate all persons in the South for property taken or destroyed in the war, and that all the Democrats in the State voted for it. California Republican journals are making use of this fact in the canvass in that State. Can it be true, or can it be, but cannot get away from the record. Coincident with this exhibition of the subject is the declaration, made by such papers as the Richmond *Whig* that the Southern States intend to demand payment for the slaves freed by the war. A. H. Stephens, ex-Vice President of the Confederacy, in a recent article in his paper, distinctly hints at the same thing. The Sacramento *Union* holds it to be "the ulterior purpose of the Democratic party in either republic the public debt or some of the payment of an immense aggregate of rebel claims." This, it says, is to be the great issue of the future. It has always been held by the Democratic party, and is now by many of them, that the last three amendments to the Constitution were not constitutionally procured; hence, if that party gets power it will be found by the logic of its own principles to take this course. "This question," says the *Union*, "is the great issue of the future in American politics. As long as it is an issue, as long as any large part of the Democracy can be reasonably suspected of entertaining it, just that long the people cannot, and do not trust them with political power."

Croaking about "centralization" is yet quite prevalent. In the sense in which this term is used by the Democratic politician it means that the National Government, in its sphere, is a sort of foreign power, between which and the State a perpetual jealousy or hostility must be maintained. The National Government, on this theory, is a social evil—or liberty, and the States must at all times be armed in case it is to resist it. But this cry is now quite baseless. The idea that inspires it was pretty well burned out by the war.

The New Orleans *Picayune*, in a review of the cotton market, says that "the prospect at present is certainly better for the seller of cotton than it was at this time last year. There are numerous indications of an advance in cotton fabrics during the present year. The Southern crop, if now counted, will fall below what was at one time expected, and the supply in sight is inferior both in quality and quantity. It is on this state of facts that a rise is expected."

SHOTGUN—DOUBLE OR SINGLE.—Any one wishing a good, reliable gun, call on Reed, in Marion county, fall sixty feet out of a fir tree which he was trimming, and strange to say got off with nothing worse than a broken leg.

A number of people of Douglas county, who are becoming alarmed for fear the railroad will spoil the country, are selling out and leaving for Southern Oregon. The prospects of Douglas county are improving.

WOUNDED.—Mr. Hall, of Salem, was thrown from his wagon a few days ago. His head was horribly crushed, and it was feared that the fall threw him under the wheels of the wagon, but it passed over him.

Although very many fields of grain throughout the State have yielded only moderately this year, yet we do not remember to have heard at any former harvest of so many fields where the yield was exceedingly large. Farmers without number are reporting where the yield has been from forty to sixty bushels to the acre.

The Jacksonville *Times* says there is an English fowling piece at that place, belonging to Andrew Davidson, which is 150 years old. It was given to Mr. Davidson, who received it with the injunction that it is not to be fired till a Democratic President is elected. That gun won't salute the ears of this generation, that's certain.

From the *Farmer* we have this: Enoch Scervis, in Clackamas county, cut the brush from four acres of land, without plowing, sowed wheat and harrowed it in with a brush harrow. The wheat was threshed and measured last week and averaged forty-five bushels to the acre. We do not give this item for the purpose of encouraging any such primitive style of farming, but as tending to show the natural productiveness of our soil.

A Hoosier housewife furnishes this as the original recipe for making the genuine and world famous Indiana gingerbread: Sift your ginger; melt molasses till it bilks free; melt some butter till it's thin; stir it through the molasses candy; multiply by wet sugar; thrash some clover and maryandar seed, and grind them together; git a twelve pound sack of flour on credit; two cups of sour oil of vitriol; beat sombody out of the eggs; beat the eggs; strain them to substract the shells; line the pan with red flannel, saturated with equal parts of coal tar and strong butter, and pour the mixture in. Bake until it tastes good.

How They Became Millionaires.

The New York *World* is now the organ and defender of the Tammany thieves. But something over a year ago there was a row in the camp of the plunderers, and the *World* struck right and left at the thieves it is now supporting. Now let us quote from the *World* of March 31st, 1870, to show how the Tammany thieves became millionaires:

"Mr. Tweed was worth less than nothing when he took to the trade of politics, for he was a bankrupt. Now he has great possessions, estimated all the way from $5,000,000 to twice as much. We are sorry not to be able to give his own estimate, but, unluckily, he returns no income. But at least he is rich enough to own a gorgeous house in town and a superb house on the country, a stud of horses, and a set of palatial stables.

"The result of Messrs. Sweeny and Tweed's administration has clearly been to decrease the public revenue to the amount of their own gains, minus the legitimate incomes of their employments, but *plus* the much greater sums they have parted with to their accomplices of the Radical legislative Ring to secure a continuance of their power. That is to say, they have in a more or less circuitous manner *swindled* the public to that extent.

"We only know that Mr. Tweed's strictly official remuneration is absurdly inadequate for the maintenance of Mr. Tweed's personal glories. We are left to imagine how grateful constituents, overcome by their feelings, falling upon the neck of Tweed, surreptitiously inserted checks for vast amounts in his waistcoat pockets. We are driven to hypothecate depositions of the tax-payers of New York waiting upon Mr. Tweed with the title-deeds of mansions and the pedigrees of horses, and the shrinking violet Tweed begging them to pardon his rosy blushes, and for his sake to forbear publishing public mention of their act. Upon no other supposition is it possible to account for the rapid and astonishing growth of Tweed.

"Mr. Tweed's native modesty shrinks from blazoning abroad the exact extent of his present wealth, or the exact means by which it was acquired. His sensitive soul revolts even at the partial publicity of the income list. We are tossed upon the bare and lonely ocean of conjecture. But we do know from his own reluctant lips that this public servant, who entered the public service a bankrupt, has become, by an entire abandonment of himself to the public good, 'one of the largest taxpayers in New York.' His influence is coextensive with his cash. The docile Legislative dirt at his feet, or frail at the feet of Gamaliel, and waits in reverent inactivity, for his signal before proceeding to action."

And in another place the *World* had this:

"And by his not the stream of honor flows!
His name alone security bestows."

Certainly there is no other city in the world where this pecuniary rewards of public service are so enormous and so ribaldiously under the sway of universal suffrage. Take Tweed. When that great man first offered himself for the suffrages of his fellow citizens he was deep in debt. Notwithstanding this drawback and the further fact that the direct income of the places which he has filled is barely sufficient for a comfortable maintenance, Mr. Tweed relied upon the generosity and right feeling of his fellow citizens to make good to him the losses which he sustained by devoting himself to their service instead of his private emolument. He spurned to count the cost when the commonwealth demanded his devotion. The event has proven that he has not trusted in vain.

THE PROHIBITIONISTS.

A company is to be organized at Helena, Montana, to build reduction works.

The vote for delegate to Congress in Lewis and Clarke county, including the town of Helena, stood thus: Cleaver (Rep.) 1,322; Toole (Dem.) 802. Republican majority, 520. The county has sets of books been heavily Democratic.

A young fellow at Boise City, who was "corralled" by a buxom widow, got frightened at the prospect, and a day or two before the time appointed for the wedding absconded. The lady was indignant at the matter became the talk of the town and got into the newspapers, and there was much fun over the affair.

The U. P. and C. P. R. R. Companies are about to build a new town five miles west of Ogden, and thus leave the modest Mormons out in the cold. All the railroad offices and machine shops of the two companies will be removed to the new site, which will be junction of the roads. It is proposed to erect a magnificent hotel, one of the largest in the West, and to add other attractions to the embryo city.

CURRENT NOTES.

The census of the present year shows that out of 31,500,000 people in Great Britain, only 30,000 are owners of the soil.

Next year there is to be a total shrouding of the sun and visible to the United States. It will come off in June, 1954.

The *Rocky Mountain News*, published at Denver, Colorado, on the 15th ult. gave an account of the first excursion train on the first narrow gauge railroad in this country. The track of the Denver and Rio Grande Railroad is now laid three miles out of town, and a number of strangers being in town it was determined to give them an excursion over the first three feet gauge.

That was a terrible revenge adopted by a ten year old boy in Lynxburg, Wis., a few days since, to whom you believe the story told by the La Crosse *Republican*. His mother chastised him for some offence, and the indignity of the punishment so excited in the lad's mind that he sought relief in death, to secure which he hung himself to a tree not far from the house. His mother, unfortunately, as it turned out, saw him before he was entirely strangled and cut him down. The same evening, however, the boy proceeded to kindle a fire with some kerosene, and after calling the other children about him, poured the oil from the can on the fire, when an explosion ensued, and all of them perished in the most excruciating torture.

FOREIGN NOTES.

The Leipsic University recently had a funeral celebration to honor the memory of those of its students who died in defence of their country during the late Franco-German war. Of the 400 who enlisted, 2 died by accident, 12 of disease, and seven were killed, some popularly supposed by disposition of Napoleon by his pompous declaration that "not an inch of our territories, not a stone of our fortresses, should be surrendered to Prussia." It turns out that expression was cried by Gen. Fleury, the French Minister to Russia, after the first reverses at Werth.

In St. Petersburg, the population of which is about 600,000, only 12 persons were murdered last year; 55 destroyed themselves; 98 were drowned; 145 died of intemperance, and 140 perished by various accidents. In the Capital of Russia it is very rare for a man to be killed in a riot, to which, indeed, its soil is not at all favorable.

The entire population of Japan is given at 34,778,990, of whom 456,695 are Pariahs. The ennoble aristocracy (Damios) number 3,180, and the literary and military orders (Soumourai) 2,873,999. The priests amount to 108,000, 245,689 being Boodhists, and the remainder Sintoos. In the insular empire five persons on an average occupy one house, showing a vast superiority of room to New York.

BE MANLY.—Never try to keep out of a man's way when you are owing him anything, unless it is a thrashing. It is bad enough in all conscience, to be in debt, but do not make your condition worse by growing meaner under its pressure. When you absolutely cannot pay up at the appointed time, don't make him believe you are sick, don't skulk about in any of the way-streets to avoid meeting your creditors, don't sneak around the first corner when you catch sight of him before he has seen you. All such conduct is unmanly. No doubt you're averse to stand face to face with a man to whom you are a debtor, pay day past and you are a debtor still—it is mortifying, very, but it is only one of the natural consequences of borrowing; and as you have incurred the penalty, why not meet it like a man. Face your creditor, let him know you neither forget the debt nor underrate his patience to you. Say frankly that you are very sorry to keep him so long out of his money, and that you will pay up as fast and as soon as you can.

This is the only way to conduct yourself in the case. There is no respect due to men or women who, failing to be able to meet their payment at the proper time, instead of going at once and explaining the reason why they fail, and be and say all they can to assure their creditors that they mean no dishonesty, just sneak about carefully, anxiously, only to shun the creditor's sight. Be manly.

REMARKABLE CURE OF MRS. HOOVER.

PUYALLUP PLAINS, Washington Co., Oregon, July 29, 1871.

DR. A. M. LOEWE—I have been troubled with Rheumatism for the past twelve years; my joints, especially those of my feet and hands, were badly swollen, so that I could with difficulty go around. My shoulder pained me a great deal and a LARGE BONY SWELLING grew out, so that I could not raise my hand to my head. Since last spring I have been taring your "Oak Weed Remedy," and find myself much improved. The swelling and pain has left my joints and shoulder and that bony growth has entirely disappeared and I use my limbs and am far better than I have been for years.

CITY.

EXCURSION TO GRAY'S HARBOR.—The advertisement of the steamship *Cussie Telfair* to Gray's Harbor on Thursday next, will be read with interest by many.

ARRIVAL.—Lieut. Commander Selfridge, U. S. N., hydrographic inspector of the Pacific coast, arrived in this city yesterday.

ARRIVAL.—Lieut. Commander Selfridge, U. S. N., hydrographic inspector of the Pacific coast, arrived in this city yesterday.

GRAY'S HARBOR.—The harbor at Gray's Harbor has recently attracted much attention, and the location of the country is a most interesting thing to those who are interested in dairying, or in siding to develop the resources of the country. Aside from this this is just a favorable time of the year for an excursion of the sort proposed. Hattie, had personal experience of the steamship *Cussie Telfair*, and her officers, we can and do recommend one as a trusty and pleasant sea ship, and others as [illegible] of officers and pleasure seekers who will never leave anything undone to add to the comfort and enjoyment of passengers travelling with them. The excursion is a short, one which any of our citizens might look forward to with the most [illegible] anticipations.

ORPHANS' ASYLUM.—QUARTERLY REPORT.—Dr. D. Ellis, visiting physician of the [illegible] Asylum favors us with the following facts from his report for the quarter ending August 31st:

Number of patients June 1st [illegible] 105
Admitted during the quarter—Males, 19; females, 26; total, 45.
Discharged during the quarter, 10.
Died during the same period—[illegible]
Bruits, A. C. Loopy, M. Larocque, [illegible]
Flensburg, Escapod—Dwight Herriott, C. C. Lop, Scotty.
Number of patients in the Asylum August 31st—Males, 14; females, 40; total, 54.

ABOUT AN ORGAN.—[illegible] The following is the paper last Saturday, regarding a new [illegible] in the Methodist church until the Commissioners' Court [illegible] Saturday, did not convey the information correctly as the gentleman who [illegible] order. A note from Mr. Lowe [illegible] to be was in San Francisco, to which [illegible] Mr. Hall that negotiations were then [illegible] for a purchase of an organ, and [illegible] with the Commissioners, but Mr. Lowe [illegible] nothing was said as to the purchase of [illegible] at New York. The inference we take from Brooke's note is that if the negotiations [illegible] the Commissioners will be put on the [illegible]

FIRE IN THE WOODS.—For the last night or two a brilliant light has [illegible] visible just over the mountain west of the city. We have not learned [illegible] raging in the woods near the farm of Mr. Hennessy, and that a bridge on the Mount Zion road has been burned. Mr. Hennessy has [illegible] down his fences and hauling the rails away to save them.

COMPANY LIST.—The Tualatin River Navigation and Manufacturing Co. has just let the contract for clearing and excavating the canal to connect the Tualatin river and Oswego lake with Col. Hedges of Oregon City. The contractor is to begin work on the canal next Monday.

HOUSE RAISED.—The house of Mr. J. B. Morrison, on Alder street between Fifth and Sixth, was raised early yesterday morning—as is supposed by Chinese—and robbed of about [illegible] dollars worth of blankets and other articles.

U. S. CIRCUIT COURT.—This Court met yesterday, but adjourned till to-day without transacting any business. Judge Field, of the U. S. Supreme Court, is expected to arrive by the steamer to hold the September term.

RAILROAD CONTRACTS.—The contracts for clearing and grubbing forty additional miles of the Northern Pacific Railroad will be let next week. We have not learned the names of the parties to whom the awards were made.

SOCIETY MEETING.—The Ladies Relief Society will meet at the usual place to-day (Tuesday) at 2½ o'clock P. M. A large attendance of the members is desired, as important business is to be brought up.

PERSONAL.—Mr. B. M. Washburn, joint owner with Mr. McDonald of the *Register*, and [illegible] master at Vancouver, came over yesterday on the Vancouver steamer.

STRANGE WINDS.—The steamship *John Pierce* on her upward trip encountered very strong head winds from Crescent City to the Columbia river bar.

LUNCH.—We are under the compliment of a basket of lunch—wine included—from William Engine Co. No. 1, last evening.

GERMAN ARD SOCIETY.—A regular meeting of this society will be held, at the usual place, o'clock this evening.

ARRIVED FROM TILLAMOOK.—The schooner *Miss Bond*, Capt. Como, arrived Sunday evening from Tillamook.

BUSINESS NOTICES.

MESSRS. GILL & STEEL, the former a well known book dealer, late of Salem, and the late the County Treasurer of Multnomah county, and late a clerk in Ladd & Tilton's bank, appear this morning as new advertisers in our columns. We not fail to read their advertisement. They are successors to Holman & Harris in the book and stationery line and occupy the old quarters of that firm, with not only the old stock but the large additions thereto.

OYSTERS.—A. Wing & Co. of Oysterville, have opened a wholesale and retail agency on First street, next to Oro Fino Saloon, which they will be supplied from their oyster beds at Shoal

The Daily Oregonian.

TUESDAY MORNING, SEPT. 5, 1871.

CITY.

EXCURSION TO GRAY'S HARBOR.—The sailing of the steamship *Gussie Telfair* to Gray's Harbor, has been postponed till next Thursday at 7 o'clock P. M. The agricultural regions about Gray's Harbor have recently attracted very wide notice, and no section of the country is just now interesting to those who are interested in getting homes or in aiding to develop the whole resources of the country. Aside from this fact, this is just a favorable time of the year for an excursion of the sort proposed. Having had personal experience of the steamship *Gussie Telfair* and her officers, we can and do recommend the one as a trusty and pleasant sea ship, and the others as careful officers and pleasant gentlemen, who will never leave anything undone to secure the comfort and enjoyment of passengers traveling with them. The excursion is, therefore, one to which any of our citizens might look forward with the most cheerful anticipations.

INSANE ASYLUM—QUARTERLY REPORT.—Dr. A. D. Ellis, visiting physician of the Insane Asylum, favors us with the following facts from his report for the quarter ending August 31st:

Number of patients June 1st—Males, 107; females, 38; total, 143.

Admitted during the quarter—Males, 12; females, 5; total, 17.

Discharged during the quarter, 10.

Died during the same period: Male—Henry Brudt; A. C. Looney, M. Larcose; females—Sarah Barnsburg. Escaped—Dwight Hurlburt, of Clatsop county.

Number of patients in the Asylum August 31st: Males, 105; females, 40; total, 145.

ABOUT AN OBSERVER'S SCRAPBOOK.—The item which appeared in this paper last Saturday morning, stating that a ship had run in company with the *Constantine* between Portland and San Francisco, did not convey the information precisely as the gentleman who furnished it intended. A note from Mr. Brooks stated that while he was in San Francisco, he was informed by Mr. Koch that negotiations were then pending to put on the route a steamer to run in connection with the *Constantine*, but Mr. Brooks thinks nothing was said as to the purchase of a steamer at New York. The inference we take from Mr. Brooks's note is that if the negotiations succeed, the steamer will be put on the route immediately.

FINE LARGE PEACHES.—Mr. H. W. Prettyman, of the "Railroad Nursery," East Portland, sent into this office yesterday a dozen or so of very large, handsome and richly flavored peaches of his own growth. We do not think we have seen any better specimens this year, even from California or Eastern Oregon. If such peaches can be grown in this neighborhood, it is surprising that more attention is given to their cultivation.

THE WOMAN QUESTION.—On Wednesday evening Mrs. Susan B. Anthony will lecture at Oro Fino Theater on Woman Suffrage. It can scarcely be possible, we suppose, to say anything which could help the reputation of this distinguished woman's advocate. Whoever has read the papers has read often of Susan B. Anthony, and we have no doubt but there will be a general desire to see and hear the women of whom we have all seen such frequent mention the last few years.

ADDRESS ERROR.—Our information in regard to the suspension of navigation above Oregon City, on the Wallamet and tributaries, was not quite correct. Boats do not now run to Salem, on account of a bad bar which has not yet been dredged, but regular trips are made as usual to Lincoln, and up the Yamhill river to Dayton; Lincoln is only a few miles below Salem. The steamers touch at all intermediate landings.

CONCERNING THE TOWN OF HALSEY.—We are informed that the daily mail service from Halsey and Brownsville began on the first instant. During last week, fourteen lots in Halsey were sold, averaging the price of $125 each. The new school house will be opened about October 1st. Wheat is being bought at $1.00 per bushel, and considerable quantities are coming in.

STEAMER BRUNSWICK.—The *Bulletin* of last evening says: "An subscription is to be started upon the North Pacific Transportation Company's office, upon which a flag staff will be placed to a height that will admit of a flag being seen from every part of the city. When steamers are in port, and to sail, the signal flag will be hoisted at that place."

FIRE IN THE WOODS.—For the last night or two a brilliant light has been visible just over the mountain west of the city. We hear that the fire is raging in the woods near the farm of Mr. Hounces, and that a bridge on the Mount Zion road has been burned. Mr. Hounces has been tearing down his fences and hauling the rails away to save them.

COOPER'S LET.—The Tualatin River Navigation and Manufacturing Co. has just let the contract for clearing and excavating the canal to connect the Tualatin river and Oswego lake, to Col. Hedges of Oregon City. The contractor is to begin work on the canal next Monday.

HOUSE ROBBED.—The house of Mr. J. B. Garrison, on Alder street between Fifth and Sixth, was entered early yesterday morning—as is supposed, by Chinamen—and robbed of about ten dollars worth of blankets and other articles.

U. S. CIRCUIT COURT.—This Court met yesterday, but adjourned till to-day without transacting any business. Judge Field, of the U. S. Supreme Court is expected to arrive by the next steamer to hold the September term.

RAILROAD CONTRACTS.—The contracts for clearing and grubbing forty additional miles of the Northern Pacific Railroad were let last week. We have not learned the names of the parties to whom the awards were made.

SOCIETY MEETING.—The Ladies Relief Society will meet at the usual place to-day (Tuesday) at 2½ o'clock P. M. A large attendance of the members is desired, as important business is to be brought up.

PERSONAL.—Mr. B. M. Washburn, joint owner with Mr. McDonald of the *Register*, and Postmaster at Vancouver, came over yesterday with the Vancouver firemen.

STEAMER WINDS.—The steamship *John L. Stephens* on her upward trip encountered very strong head winds from Crescent City to the Columbia river bar.

LUNCH.—We acknowledge the compliment of a basket of lunch—wine included—from Willamette Engine Co. No. 1, last evening.

GERMAN AID SOCIETY.—A regular meeting of this society will be held, at the usual place, at 8 o'clock this evening.

ARRIVED FROM TILLAMOOK.—The schooner *Miss Bond*, Capt. Corno, arrived Sunday evening from Tillamook.

BUSINESS NOTICES.

MESSRS. GILL & STEEL, the former a well known book dealer, late of Salem, and the latter the County Treasurer of Multnomah county and late a clerk in Ladd & Tilton's bank, appear this morning as new advertisers in our columns. Do not fail to read their advertisement. They are successors to Holman & Harris in the book and stationery line and occupy the old quarters of that firm, with not only the old stock but very large additions thereto.

OYSTERS.—A. Wing & Co. of Oysterville, have opened a wholesale and retail agency on Stark street, next to Oro Fino Saloon, which they keep supplied from their oyster beds at Shoalwater Bay, where they have 150,000 baskets of marketable oysters, and having their own conveyance to the Columbia river, can supply the trade at lower rates than heretofore. A. Wing is in charge, and will furnish in any quantity.

THE AUCTION SALE at Armory Hall was well attended yesterday and the sales brisk. To-day is the last day of the auction.

AMUSEMENTS.

ORO FINO THEATER.—The Nathan Juvenile Dramatic Troupe appeared last evening at Oro Fino Theater, to a full house and Little Marion, the universal favorite, as usual, carried off the honors of the evening in three new Irish characters. The troupe will leave during this week for a trip to Victoria.

FIREMEN'S ANNUAL PARADE.

The annual parade of the Portland Fire Department, which took place yesterday afternoon, was the most imposing affair of the kind ever witnessed in this city. The various companies had early meetings yesterday morning for the purpose of receiving visiting firemen from other towns and perfecting arrangements for the day's exercises. The Vancouver delegations arrived shortly after 10 A. M. by the steamer *Vancouver*, and were met at the wharf by delegations of Portland companies and escorted to the American Exchange Hotel. At half past twelve P. M. the Albany, Salem and Oregon City delegations arrived by the express train of the O. & C. Railroad, and were in like manner met at the depot and escorted to their hotels.

The engine houses were tastefully arranged and decorated, and their flag staffs bore a profusion of flags, banners, streamers, etc. The engines were handsomely ornamented with bouquets and evergreens. So far as antecedent preparation could go, everything was already fully arranged for a grand gala day. The reception and disposition of guests called the bands and large delegations of our own firemen into active service at an early hour, and the streets were, therefore, a constant scene of lively commotion throughout the entire day.

VISITING FIREMEN.

The Portland firemen never before were honored with the presence of so many guests from neighboring departments. Delegations were present from Vancouver, Dalles, Astoria, Oregon City, Salem, Albany and Walla Walla. The Vancouver, Salem, and Albany boys brought their machines with them. The numbers of visiting firemen, in uniform, who took part in the parade and other exercises, were as follows: Vancouver, 40; Albany, 38 men, two feet to the Salem band and two little girls—daughters of Jack Allphin and Mr. Arnold; Salem including the band, 50 men; Dalles, 6; Astoria, 16; Oregon City, 26; and Walla Walla, 1. The Albany firemen were under the command of Mr. Jos. Webber, formerly a Chief of the Portland Fire Department. The Salem boys were under command of J. G. Wright, Chief of the Salem Fire Department; W. H. Gray, Foreman, commanded the Astoria firemen; Wm. Barlow, Chief of the Department, commanded the Oregon City delegations. Mr. M. Winter, Chief of Department, commanded the Vancouver delegations.

THE BANDS.

The 25th U. S. Infantry Band, employed by the Department, led the procession; they numbered 18 pieces. The East Portland Band turned out 18 pieces, under the leadership of Mr. Thos. Parrott; and the Salem band 14 pieces, J. H. Hoss, leader.

PORTLAND FIREMEN.

The muster of our own firemen was very full considering the number of absentees from the city; and the necessity for some to attend to business, in cases where partners are each members of the Department. By actual count, while the procession was moving, Vigilance Hook and Ladder Company had 28 men; Willamette Engine Co. No. 1, had 38 men—the full number on the rolls; Multnomah Engine Co., with steamer, had 36 men out of 65 on the roll; Columbia Engine Co. No. 3, had 14 out of 55 on the rolls; Protection Engine Co. No. 4, with steamer, 28 out of 51 on the rolls. There were greater numbers actually on duty, but not present with their companies. The exempt firemen in the procession numbered thirty. The numbers participating in the parade foot up as follows: Visiting firemen, 179; Portland firemen, active 194, or allowing for those who were not actually in line with their companies at the time of count, say, 210. Exempts 30. Bands, 48 men. Total, 467. About that number, or perhaps something more, sat down to lunch after the parade.

THE PARADE AND MARCH.

At about two o'clock the several companies were paraded at their houses, and at half past two the line was formed, as per previously published programme, Multnomah Engine Co. being the first to move, and the others being taken up as the procession proceeded to Morrison street and thence to Front. The line being completed at Morrison street, the procession moved down Morrison to Front; Front to C; C to Third; Third to Morrison; Morrison to First; First to Yamhill; Yamhill to Third; Third to Columbia; Columbia to First; First to Madison; Madison to Front; Front to Morrison; Morrison to First; First to Pine; Pine to Front to Oregon Steam Navigation Company's wharf.

COLLATION—SPEECHES.

Reaching the O. S. N. Co.'s warehouse, the entire company sat down to a collation set by the Portland Fire Department. At the close, as Judge Williams and a few others of the exempts, were about to retire, loud and continued calls were made upon the Judge for a speech. He returned and briefly addressed the assembly, alluding in such terms to the history and services of the Department as elicited frequent applause. Capt. S. J. McCormick was called, who also made a few remarks, which were, however, almost completely drowned by a disturbance between two or three firemen, who are to-day, doubtless, sufficiently ashamed of their conduct. This affair we presume cut short the intended exercises at the table as no other speakers were called, and the several companies were at once called into line.

CONCLUSION.

The procession being re-formed the several companies were escorted to their respective houses and dismissed with the usual courtesies. The engines of the visiting companies that stayed over were housed at No. 2's and No. 1's houses, the Vancouver company returning home at 7 o'clock. Lunch was set out at the several houses, entertaining guests, during the evening, and the greater part of the evening was spent in exchanging calls and those amenities which from time immemorial have distinguished firemen, and which have made them a distinct brotherhood.

COMMON COUNCIL.

The Council met as per adjournment for the purpose of considering the change of the Fourth street grade.

Present—Bills, Burton, Caywood, Congle, Combs, Hallock, Hill and Moffett. Absent—Besser.

Mr. Hill, as Chairman of the Committee, stated they had no report to make, owing to the fact that the committee upon the part of the Council and that of the railroad were unable to meet and agree upon a report.

Pending the remarks of a Councilman, Mr. Halsey entered with a proposition on the part of Mr. Holladay, for changing the grade of Fourth street, which, upon motion, was read. Mr. Hill moved to refer it to the Committee on Streets and Public Property.

Mr. Hallock opposed the motion, to refer to Committee on Streets and Public Property, and moved as a substitute to plant Mr. Holladay's proposition on file.

Mr. Hallock and Mr. Hill made some remarks pro and con upon Mr. Holladay's proposition, after which Mr. Hallock's substitute to Mr. Hill's resolution was put by the Mayor and carried.

The Mayor appointed Wednesday morning at 10 o'clock to visit the Water Works.

Mr. Hallock moved to instruct the Committee on Streets and Public Property to report by ordinance in relation to the grade on Fourth street, on Wednesday night next. Carried.

Mr. Congle presented an ordinance allowing the City Attorney to obtain aid before the Supreme Court in the case of T. J. Carter and O. P. Mason against the city, which was, on motion, read the first time.

Mr. Hallock and Mr. Hill made a few remarks upon the ordinance.

Mr. Bills moved that the ordinance be read the second time by title. Carried.

Mr. Congle moved that rule 28th be suspended and bill read third time and placed on its final passage.

Council adjourned.

The Religious Controversy in Germany.

A Berlin letter to the New York *Independent* says that Papal infallibility is not the cause, but simply the occasion of the great religious controversy now raging in Germany. Infallibility, says this writer, has only been the pretext. There has for a long time been a large party of Catholics in Germany, including the more intelligent men of the laity and University Professors, who have been striving for a general reform in the Catholic Church. They want, among other things, a more liberal interpretation of theology—one that shall conform to the latest advances of science—and also a greater liberty of thought on religious matters. But the political bearings of the agitation are more weighty than the religious. The Germans think that there is danger for their Union. We quote this from the letter:

The dogma was brought forward, in the first place at the instigation of the enemies of Germany, who hoped thereby to hold back the Catholic States of Southern Germany from the support of the North, in the event of a war with France which was then imminent. And it has demonstrated that the German people would so soon conquer France, manic people would so soon conquer France, and turn the balance of military power so strongly against the Latin nations, they would never have insisted on passing the new dogma. But now, to make the best of their error, they mean to prevent, if possible, the complete absorption of the South by Protestant Prussia, for the look upon the new German Confederation as a Protestant introduction, risen on the ruins of the Catholic Confederation, which existed before under the leadership of Austria."

Again, the teaching of this doctrine, besides the influence which it gives to the Church over the nations, gives an undue influence to Italy, Spain, and France, that is, to the Southern or Ultramontane races and politics over the rest of the continent. For, since the other nations are also largely Catholic, and since the Catholic Church is governed from Rome it is giving them into the hands of Rome, if Rome is to be intrusted with an unlimited control over the conscience of the Church.

The following additional paragraph furnishes further explanation:

Almost immediately after the commencement of the discussion, both the King and Ministry of Bavaria [illegible] plainly their displeasure at the [illegible] of the new dogma. Austria also [illegible] to like opposition. Wirtemburg upon the first of May, issued a proclamation stating [illegible] interpretation of the doctrine of Papal infallibility should be allowed to have any application to the duties of the citizen to the State. This, however, is found very insufficient, and will soon be superseded by action more definite. The greatest probability is that the nations will wait until, after common council, they can all act together. Events are daily occurring which will drive them to a decision of some kind. The Bishops are removing the priests, and University Professors who refuse to teach the new dogma; and these, instead of obediently leaving their pulpits and chairs, are appealing to the Government.

The "Times" and the Tammany Thieves.

Unable to answer the New York *Times*, the Tammany ring have decided to try to conciliate its enmity, and this action the *Times* itself thus speaks:

It will be seen that at last the city authorities have determined to do something to clear their characters. What that "something" is will probably astonish the public, although it ought to be, by this time, well accustomed by this time to the tortuous processes of Mayor Hall and his friends. The Controller's accounts are not laid before the public—it is supposed, to be enough to "dump" seven thousand pages of figures into one of the offices, and there let them rest to cool. The figures we have published are not explained away. Not a single item in Ingersoll's, or Garvey's, or Keyser's accounts can be disputed. As the facts which we have made public are [illegible] Hall and his friends, they have resolved to make direct war upon the *Times*, which has exposed them. For this purpose they intend to bring an action of ejectment against us. So far as our own interest is concerned, we shall not at present trouble the public with any explanations. Our property was lawfully bought and paid for, and our friends may have no fears about us retaining it. But it is fairly a question of public whether Hall and his confederates will be allowed to escape from the consequences of their misdeeds under cover of far-fetched actions against a newspaper. What we have published cannot be disproved, and the only answer the city authorities can make is to stultify the mayor by litigation. We confidently leave the public to pronounce a fair and impartial opinion upon this course, which says neither it exonerates Hall and Connolly from the charges we have brought against them. We have the fullest belief that the latest move of the ring, instead of saving it, will only accelerate its ruin.

FINANCE AND COMMERCE.

Shipping Intelligence, Sept. 4, 1871.

Gold in New York, 113.

Currency, buying, 98; selling, 80.

The advance in gold indicates that the speculative demand, the mercantile demand, together with extreme deficiency in exports, owing to the lessened demand from Europe for petroleum, grain and flour, are causing the advance. But in the meantime, if the advance over that it will go much if any higher, we have no faith. As cotton is beginning to come in which will give exchange, and Secretary Boutwell holds too much gold for speculators to attempt to force the price up too high.

There was shipped through Wells, Fargo & Co. per steamer Idaho to San Francisco $72,000 in bullion.

The shipment of specie from January 13th to August 30th compares as follows:

To—	1870	1871.
New York, per railroad	$600,778 83	$17,811 49
Previously, per steamer	14,930,450 83	4,845,813 10
Previously, per railroad	8,166,702 23	6,346,635 52

Total	$19,722,439 22	

Movements of vessels. Steamer *John L. Stephens* is due to-night and is advertised to leave on Thursday, September 7th, at 5 o'clock A. M. The steamer *Constantine* is due to-morrow (Tuesday) evening, and will leave on Thursday or Friday. The steamer *George S. Wright* will leave for San Juan, Nanaimo, and Sitka on Wednesday, September 6th. The steamer *Gussie Telfair* leaves for Gray's Harbor Thursday, September 7th, at 7 o'clock A. M. The *Jane A. Falkinburg* will have cargo discharged to-morrow (Tuesday.) Will take on part cargo here and balance down the river for Rosebluff.

Our mail advices from Europe give disinformation that owing to the failure both in some portions of Russia and Germany, the yield of wheat in some localities would not be more than a quarter less than former years, but in other localities, the yield was more than an average, which, taken with the increased average, will give about nearly if not fully as large a yield as formerly. Messrs. Patterson Bros., Liverpool *Prices Current* gives the following regarding wheat in England: "The weather all over the country being of the most seasonable character during the week, the markets generally have ruled extremely quiet; prices of native produce, however, have been tolerably well sustained owing to scarcity, indicating that the crop of 1870 is nearly exhausted on the advent of the forthcoming harvest, which may be estimated a week earlier than was apparent at the close of last month; the brilliant ripening weather of the last few days having greatly accelerated."

In connection with the above we give the following table of exports from the northern and southern sections of Russia to southern Europe. The figures represent hundred weights of 112 pounds:

	Northern Ports.	Southern Ports.	Total.
1865	844,156	7,249,834	8,093,990
1866	1,741,937	7,429,495	6,181,450
1867	1,421,322	12,074,071	14,166,790
1868	4,038,813	5,071,625	13,005,388
1869	6,184,808	9,173,124	13,807,935

The pinchers of money at the different financial marts of the world is a source of surprise to all leading financiers and consequently they have been engaged in the laborious task of forretting out the causes. In the pursuit of the cause they have compiled estimates of the recent additions to the floating capital in England, France and the United States, as follows:

ENGLAND.	
Actual increase in deposits of five London banks	$76,350,000
Estimated additions to country banks in Great Britain	100,000,000

Total	$1,035,284,599

These figures only represent the recent additions to the floating capital of these [illegible] countries, without giving the estimate of increase in Germany. That much has been added to the floating capital of that nation, we have no doubt, unless the surplus has been drawn to the United States for safe investment. The increase to the United States is beyond comparison with the history of any nation on the globe, and consequently is a source of surprise to many, but it might have followed we do not see as it should be a source of surprise to any. Within the past year all Europe has been excited to the foundation by the great struggle between France and Germany, during which time the surrounding nations might at any time be drawn into the conflict. The immense [illegible] have been gaining ground for many years past, that the nations of Europe were mere volcanoes which at any moment would burst forth, has been more forcibly impressed by the late war and consequently capital is flowing to the United States for investment and which will hardly be check'd unless human politics regain the [illegible] and seek to repudiate our national debt or in some way [illegible] to destroy confidence in the integrity of the people. The confidence in the United States as a field for future operations is the key note to the great additions to our floating capital. Confidence is the first element of the great business activity. Which is a strong [illegible] all the locked up treasures of capital is thrown open for investment. The superabundance that will cause large sums [illegible] and is still coming to flow to California to find its way to Oregon. For here presents to capitalists a broader field for investment, promising a larger return than is presented anywhere in the United States. Here are found, practically, the valleys of rich farming land never known to fail—when properly cultivated, of producing large crops—vast tracts of timber land, fisheries, mineral wealth, comprising tin, silver, gold, coal, iron, salt, etc., anywhere [illegible] and to be unsurpassed in richness. The trade of a majority of the trade of China and Japan can with proper inducements be brought this way, as the distance, both by water and land, to the Eastern marts is considerably shorter than over any other route.
